

Lincoln Academy Middle School Athletic Eligibility Form

To help our students focus on academic priorities, students must maintain their grades in order to represent the school in athletic competitions.

Any student whose grades include 2 or more D's or 1 F will be ineligible. When a student is academically ineligible, he or she may regain eligibility provided his/her grades meet eligibility requirements at the end of each week when weekly eligibility is posted. Middle school teachers and/or athletic director have the ability to overrule weekly ineligibility, given the ineligible student has no missing assignments, is getting academic help during after school hours (ASH), and has been proactive in creating an academic plan for all classes where his/her grade is a D or F. This ruling will be determined as weekly eligibility reports are posted. Academically ineligible students will still be expected to attend practices and athletic competitions.

Any student who is suspended will be ineligible for at least the first game/event from the service date(s) and/or 5 days thereafter. A student's attendance must be "In Good Standing" and he/she must attend school at least 75% of the day of the game/event in order to participate.
