

# Lincoln Academy Charter School

Office of the Principal  
October 2009 Report to the Board

- **Building projects**
  - The roof project is moving ahead, we are all very excited for it to be completed!! ☺
  - The trim is finished outside Janelle's office
- **Hot Lunch**
  - Overall, things are smoother each week
  - New items are being added each month
- **Students**
  - Our one day count window has ended. Suzanne had to do quite a bit of extra work this year because of so many ill students on Oct. 1 and throughout the window, but we should be fine
  - **Academic Skills**
    - Teachers and I will begin meeting about CSAP scores in the next month. We will look at individual scores as well as class trends on sub-content areas.
  - **Physical Skills**
    - PE is still the main outlet for developing physical skills in our students. Mr. Miller has continued to provide quality PE instruction and physical activities for students K-8
  - **Health**
    - Sickness is hitting LA, but most parents are being great about picking up kids who get sick and keeping sick kids home.
- **Implementation of the Educational Program**
  - I have observed classes in all rooms several times this year. LA continues to provide an academically rigorous education to all students.
  - Conferences seem to be going smoothly. We may look at a different plan for middle school conferences next year.
- **Treatment of Staff:**
  - I have met with many staff members, but not all. I am trying to be more available for meetings with staff members. Some take advantage of the opportunity and some do not.
- **Middle School Athletics**
  - The soccer playoffs are on 10/12 and 10/14 and the volleyball tournament is on 10/17
  - Boy's basketball will begin the week of October 19.
  - Girls' basketball will begin in January
