Ralston House Pinwheel Garden at Lincoln Academy

The Lincoln Academy Honor Society is hosting a Pinwheel Garden to be placed on our property in order to support the Ralston House. Ralston House Child Advocacy Center works with law enforcement, human services, district attorney's offices in the 1st and 17th Judicial Districts (Jefferson, Adams, Gilpin and Broomfield counties), and the community to provide a safe place to investigate child abuse and ensure victim services for children who have been physically or sexually abused or witnessed violence. Serving over 1,000 children per year, Ralston House also provides education and outreach to the general public to prevent child abuse.

Each pinwheel costs \$5.00. Bright blue pinwheels are a symbol of child abuse prevention awareness across the nation. Ralston House will be going to organizations in Jefferson, Adams and Broomfield Counties asking them to plant gardens of pinwheels in April to support the children in the community who have suffered abuse and to support efforts to keep children safe from abuse.

To order a pinwheel, please see the [attached order form](#) and enclose cash or check, payable to Ralston House by Friday, April 7. The pinwheels will be placed in our garden by the Lincoln Academy marquee along Oak Street. Thank you for joining our efforts to plant seeds of hope for children in our community.

8th Grade Baby Pictures

Attention, 8th grade families! We need one baby/toddler picture of your child for the 8th grade graduation video (no newborn pictures, please!). It is much better if the photo of your child does not include other family members. Digital photos from a digital camera are preferred and can be emailed to Mr. Nishida at martin.nishida@jeffco.k12.co.us. All digital photos must be in a standard image format - jpg, png, bmp, etc.

If a digital photo is not available, please have your child bring in a regular picture to Mr. Nishida to be scanned. To ensure the correct resolution and image format, please do not scan the picture yourself. All pictures will be scanned and returned to the students to take back home.

All pictures are due to Mr. Nishida by Friday, April 28th so that he can begin creating the video. Please email Mr. Nishida if you have any questions.

Homework, Grades, Sports, Chores, and Parent-Child Relationships

by Dr. Charles Fay

Does almost every day feel like a blur? Do you often find yourself wishing you had five or six more hands so you could juggle everything that comes your way? Conscientious parents in today's world face a dizzying array of competing demands upon their time and energy. When everything heading our way feels like an ultimate essential, it can be tough to determine where to place our priorities.

On a scale of 1 to 10, how would we at Love and Logic rank the importance of homework, grades, sports, chores, and parent-child relationships? As you read, keep in mind that these rankings are based on empirical research, decades of experience with thousands of parents, educators, and other professionals... and of course my own subconscious biases. Ultimately, all of us have to decide what's best for our unique children, families, and schools.

Homework

1-----2-----{3}-----4-----5-----6-----7-----8-----9-----10

Homework is important, but nearly 100 years of research has failed to give it a stellar grade. Much of the debate reflects researchers' difficulty determining how much homework is done by kids... and how much is primarily done by their parents.

Provide a time and place for your children to complete their homework. Help them as long as it is fun for both of you... and as long as they are doing most of the work. Since homework only receives a three on the scale, let them be responsible for either getting it done or explaining to their teacher why they haven't. Never fight with your kids over homework.

See: Trautwein, U., & Koller, O. (2003). The relationship between homework and achievement—still much of a mystery. *Educational Psychology Review*, 15, 115-145.

Grades

1-----2-----3-----4-----{5}-----6-----7-----8-----9-----10

Grades are important but not as important as developing character and a passion for learning. Besides, too many kids begin to gravitate toward easier subjects and classes because they are more concerned with GPA than true intellectual growth.

Sports (and other healthy extracurricular activities)

1-----2-----3-----4-----5-----6-----7-----{8}-----9-----10

Kids who participate in sports, music lessons, and other healthy extracurricular activities are far less likely to become involved in drugs, sex, and other damaging behaviors. They also tend to do better in school!

See: Stephens, L. J., & Schaben, L. A. (2002, March). The effect of interscholastic sports participation on academic achievement of middle level school activi-

ties. *National Association of Secondary School Principals Bulletin*, 86, 34-42.

Chores

1-----2-----3-----4-----5-----6-----7-----8-----9-----{10}

Yes! Chores are more important than homework, grades, and extracurricular activities. Chores... completed without chronic reminders and without pay... help our kids feel more tightly connected to the family team, allow them to develop perseverance, combat entitlement, and build healthy self-esteem. In a Love and Logic home, kids get to do their homework and participate in extracurricular activities after they have finished contributing to the family.

Parent-Child Relationships

1-----2-----3-----4-----5-----6-----7-----8-----9-----{10}

Love and Logic is all about developing healthy relationships... that last a lifetime. Why? Because there's nothing more important to life-long success than our children viewing us as being simultaneously loving and strong. Too frequently this relationship is sacrificed in an attempt to nag, threaten, or punish kids into doing their homework and getting good grades.

Love and Logic Parent-Child Relationships

(Continued from page 5)

Conclusion

There are many paths to success. Some kids go the traditional route, finding relatively easy success in learning and in school. Others struggle with school yet develop valuable skills through other avenues. When all is said and done, the priorities should always be placed on relationships, building good character, and helping kids learn to focus on their strengths.
