

# 2023-2024 Volunteer Log Update

Prepared by Lacy Cleveland for the March 2024 Regular Board of Director Meetings

During the month of February, the Board of Directors in partnership with the PTO reminded families of the volunteer expectations, provided information on how to log volunteer hours, and updated the previous volunteer calculator (i.e., [a document](#) that explains how to determine the amount of time volunteered for non-traditional activities, such as shopping for classroom donations). Specifically, information was posted on the Lincoln Academy Parents Facebook page, sent via email to all Lincoln families, and posted in the Lincoln Loop. Thank you to Mauren for assisting in all these efforts!

As a result of these outreach efforts, many families took the opportunity to record previously volunteered time. In February our families recorded an impressive 1,022.50 hours, bringing our having per family up to 4.79 hours/family compared to 2.5. We are on track to have a larger number of volunteer hours in 2023-2024 compared to the 2022-2023 school year.

Table 1 provides data on volunteer trends during the 2020-2021 school year to current trends. Our target volunteer hours for the 2023-24 school year is 9,360 hours (20 hours/family x 468 families).
