Core Decodable 68

SRA Decodables
We visited these horses.

We made a recent visit to a ranch.
These horses have a big secret.

A zebra runs with them.
These horses will not tell.

But which is the zebra?
But we did not even get a hint.
We looked and looked all over.
So has the zebra left?
Or is he just well hidden?
Can you spot a zebra?
For the time being, we cannot tell.
